Mia Bella's **CLEAN** Burning Natural Wax Candles

Why Mia Bella's candles are superior!

Our candles are made from 100% all natural palm wax. When it is harvested, it never harms the palm trees. Palm wax candles are designed to burn completely and cleanly with virtually no soot. The natural character of palm wax gives our candles a unique, beautiful and crystallized appearance that you will fall in love with!

Palm wax candles are long burning and high quality. In addition, palm wax holds and disperses fragrances better and the fragrance stays strong throughout the burn of the candle. They resist melting in hot summer months since palm wax has a higher melting point than paraffin or soy. Mia Bella's candles burn long and clean!

Palm wax is environmentally-friendly. The palm fruit used to make palm wax can simply be harvested while the trees continue to grow. Palm wax is fully biodegradable and is becoming known as the "candle wax of the future". Try Mia Bella's and you'll never go back to other types of wax candles.

Polar Bears Sea Breeze Scented

Polar bears are classified as marine mammals because they spend most of their lives on the frozen Arctic sea ice. Loss of Arctic sea ice is the leading threat to the polar bear population.

Tigers Sweet Orange & Chili Pepper Scented

The largest of all the Asian big cats, tigers rely primarily on sight and sound rather than smell. They typically hunt alone and stalk prey. Males of the largest subspecies may weigh up to 660 lbs.

Green Cheeked Parrots Tropical Paradise Scented

Native to Mexico, this colorful parrot species possesses the ability to mimic the human voice. Numbers have been decimated by huge demand for these birds as pets and they are still being illegally traded across the US/Mexico border.

Marine Turtles Ocean Mist Scented

Seven different species of marine turtles grace our ocean waters, from the sea grass beds of the Indian Ocean, to the colorful reefs of the Coral Triangle, and even the beaches of the Eastern Pacific.

Giant Pandas Bamboo & Watermint Scented

This peaceful creature is considered a national treasure in China. The rarest member of the bear family, pandas live mainly in bamboo forests high in the mountains of western China, where they subsist almost entirely on bamboo.
