Premium Scented Natural Wax Candles

2019/20  
CATALOG

# Mia Bella's **CLEAN** Burning Natural Wax Candles

## Why Mia Bella's candles are superior!

Our candles are made from 100% all natural palm wax. When it is harvested, it never harms the palm trees. Palm wax candles are designed to burn completely and cleanly with virtually no soot. The natural character of palm wax gives our candles a unique, beautiful and crystallized appearance that you will fall in love with!

Palm wax candles are long burning and high quality. In addition, palm wax holds and disperses fragrances better and the fragrance stays strong throughout the burn of the candle. They resist melting in hot summer months since palm wax has a higher melting point than paraffin or soy. Mia Bella's candles burn long and clean!

Palm wax is environmentally-friendly. The palm fruit used to make palm wax can simply be harvested while the trees continue to grow. Palm wax is fully biodegradable and is becoming known as the "candle wax of the future". Try Mia Bella's and you'll never go back to other types of wax candles.

Mia Bella's™
